

Move-In Process

All exhibitors wishing to use the loading docks for move-in must report to the Blackstock lot for marshalling to the Knoxville Convention Center.

The following move-in plan has been developed to expedite moving into the Knoxville Convention Center. Please read this information carefully to become familiar with the move-in process.

- Exhibitors are asked to report directly to the Blackstock Parking lot.
- Once you have entered the Blackstock lot report to the marshalling coordinator.
- The marshalling coordinator will give you a move-in number based on your time of arrival.
- As space becomes available on the loading docks, the loading dock coordinator will radio the marshalling lot coordinator to send next vehicle to the Knoxville Convention Center. *see route
- We suggest two people arrive with vehicle; one person to accompany the freight to the booth one person to move the vehicle immediately after unloading.

Move-Out Process

Each exhibitor is asked to follow the move-out process as closely as possible.

- After completely packing up your booth, come to the show office to pick up a loading pass.
- All vehicles must report to Blackstock lot to receive a dock pass. A dock pass is required to enter the Knoxville Convention Center loading dock.
- The marshalling Coordinator will give you a pass and let you know when it is your turn to report to the Convention Center loading dock.
- Move vehicle to be loaded to Knoxville Convention Center. *see route

Thank you in advance for your cooperation.

Directions to Blackstock Lot
